About IDEAYA Biosciences

IDEAYA is a precision medicine oncology company committed to the discovery, development, and commercialization of transformative therapies for cancer. Our approach integrates expertise in small-molecule

drug discovery, structural biology and bioinformatics with robust internal capabilities in identifying and validating translational biomarkers to develop tailored, potentially first-in-class targeted therapies aligned to the genetic drivers of disease. We have built a deep pipeline of product candidates focused on synthetic lethality and antibody-drug conjugates, or ADCs, for molecularly defined solid tumor indications. Our mission is to bring forth the next wave of precision oncology therapies that are more selective, more effective, and deeply personalized with the goal of altering the course of disease and improving clinical outcomes for patients with cancer.

Forward-Looking Statements

This press release contains forward-looking statements, including, but not limited to, statements regarding IDEAYA's plans and expectations concerning the timing, format, content and participation of IDEAYA and its management in the Investor R&D Day and investor conferences; the anticipated discussion of IDEAYA's MTAP/CDKN2A and KRAS development strategy in pancreatic cancer; the presentation of new preclinical data; the evaluation of rational combination strategies designed to address tumor heterogeneity and adaptive plasticity; the participation in and/or presentation at certain investor relations events; and the availability of live and archived webcasts of the events. For a further description of the risks and uncertainties that could cause actual results to differ from those expressed in these forward-looking statements, as well as risks relating to the business of IDEAYA in general, see IDEAYA's current and future filings with the U.S. Securities and Exchange Commission, including its Annual Report on Form 10-K filed on February 17, 2026.
